74/1924

A. H. L. Oster, Esq., I.C.S.,

~~Offg. Secretary to the Honble the Resident in Mysore~~

Sir,

With reference to your letter No. 2285 dated 13th March 1924, forwarding copy of letter No. J.S. 106 dated 10th idem from the Post Master General, Madras, regarding grant of permission to the Shanbhag Mr. Mallappa for constructing a suitable building for the Hiriya Post and Telegraph Office, I am directed to state that the question of granting a license for the construction of the said building by Mr. Mallappa has been pending the sanction of Government to the plan of extension of the Hiriya town and that Mr. Mallappa's license application will be disposed of soon after orders of Government on the said plans are passed.

I have the honour to be,

Sir,

Your most obedient servant,

(Sd) K V Anandaraman

Offg. Secretary to Government,
Revenue Department.

ICE.

at G. run

The Chief Engineer in Mysore
Forwards for sanction the
plan and estimate amounting to
Rs 16,550/- for the extension of Kinyur
town

4) The estimate has not been counter-signed
by the President of the Municipal Council.
The Engineer would get this done after formal sanction is granted.
The Municipality is agreeable to
bear only half the cost payable in
two instalments - one in the current-
year & the other in 1925-26 and
they want the other half to be paid
by the Govt.

4) The financial condition of the
municipality is as follows

1. 1924 estimate of 24-25-

opening balance	6471
Receipts	6275
Total	12,746
Expenditure	5511
Closing balance	7,235

2199-n-1

312
5/5

As desired by the Deputy Commissioner, Chitaldrug District, I have the honour to forward herewith the plan of the proposed extension of the Hiriyur Town prepared by Mr. G.V. Rao, Executive Engineer, Sanitary Division. It is in my opinion not complete, the plans require modification and estimate has to be prepared; I cannot therefore recommend it for adoption.

2. All such miscellaneous works were being dealt with in the Sanitary Division which is since abolished. In the Water -- Supply Construction Division newly constituted in its place, there is no provision for establishment for such miscellaneous works; consequently no such works can be undertaken by that Division.

3. If such works are to be carried out in this Department in future, it would be necessary to obtain the sanction of Government for adequate staff required.

I have the honour to be,

S I R,
Your most obedient servant,

The Chief Eng. is not in favour of adopting the proposed plan. However the Bureau has also in connection with budget provision for the year that no provision need be made for the same. Under these circumstances the Chief Engineer for Irrigation has been asked to be involved for the present.

A. Are you sure about this? Was some provision made at the final stage of the budget? I think a provision of about Rs. 2000 was provided for the improvement of the tanks & the further on the banks of the river.

It is uncertain that the provision of Rs 2,000 has been provisionally allotted ^{under the improvement} for completing the work taken already. The amount cannot be made available for new work ^{just like the one} under contemplation. As the Chief Eng^r also is not in favour of the proposal this has perhaps to be dropped.

SIR

76

With reference to your letter No T 9083 dated the 2nd May 1924 re the proposed extension of Viriyur Town, I have the honor to inform you that as already intimated to you in this office No 9575 dated the 23rd May 1924 the plan of layout requires modifications and as such a fresh survey &c, including block levels &c, has to be made. It is not possible therefore to complete the above work as per plan already sent before the meeting of the Representative Assembly. However I have ordered the Executive Engineer Special Water Supply Construction Division to start the survey work at once and to submit an estimate of the cost. After receipt of the estimate from him what provision has to be made next year will be intimated.

I have the honour to be,

Sir,

Letter No C 28 dated the 30th September 1924 from the Deputy Commissioner Chitaldrug District to the Sanitary Commissioner in Mysore Bangalore

With reference to your letter No C 824 dated the 14th March 1924 forwarding for necessary action the notes of inspection of Sanitation and Vaccination in the Hiriyur town I have the honor to return herewith the original inspection notes along with the reply received from the President in the matter

A copy of the resolution of the Municipal Council is also enclosed herein

I request that the approval of Government to the plan of the extension of the town may be obtained and the same communicated to me early as it is required for regulating the building of houses and disposing of the sites to the public

" C O P Y "

9/1/24

SANITARY COMMISSIONER W G

er

the present box-drain into a " U " shaped one The advantages are that water stagnation would be prevented and daily cleansing facilitated as a comparatively small quantity of water is required for flushing this type of drain

As regards plans and estimates for improvements it is absolutely necessary to have ~~the~~ proper ones prepared and checked by the Sanitary Engineering Department Necessary action may be taken without delay to obtain the plans and estimates

5 The question of town survey, is said to be under correspondence with the Sanitary ~~xxxxx~~ Engineer It was also stated that the Municipality are prepared to pay Rs300/- for the survey The matter should be pushed through in connection with the preparation of plans and estimates for a drainage scheme for the town

6 The town extension plan was examined It provides for main roads and conservancy lanes No provision is made for drains The Municipality have to be content with cutcha earthen drains for the present The soil is hard and there is good slope

The question of the active formation of the extension has been pending for over 3 years Meantime 20 sites have been sold the amount

amount realised therefrom being about Rs4 000/- I was informed that there is imminent risk of legal proceedings being instituted against the Municipality by parties if there should be any more delay in permitting them to build houses Under instructions from Government, the Municipality have deferred granting licenses for house building till the Sanitary Engineer approves of the general plan for the extension The Chief Engineer will be addressed on the subject

The site for the extension is very good It is in close proximity to the town and is otherwise suitable I was told that a Mill is likely to be started in the Extension This should not be permitted A Mill is in several ways a source of insanitation and is objectionable also from an aesthetic point of view If permission is once granted the shifting of the Mill later will cost an enormous sum to the Municipality

House-building in the extension should be properly regulated and should strictly conform to rules specially drawn up to secure alignment ventilation lighting and the general internal sanitary ordering of dwellings

"EXTRACT "

M. Memon

SANITARY COMMISSIONER M G

Extract from
Memo No 824 dated the 14th March 1924 from the President
Town Municipal Council Hiriyur to the Sanitary Commissioner in Mysore
Bangalore

* * * * *

The ways and means of meeting the portion of the expenses of the drainage scheme are the items which the Municipality expects to realise by the sale of the remaining sites on the extension this could only be possible if the Government will kindly accord sanction to the plan submitted by the Sanitary Engineer A sum of Rs4 000/- already realised by the sale of 20 sites may be utilised towards the drainage scheme

During last ~~year~~ June 1924 the sites of the extension were surveyed by the Sanitary Engineering Department and the Municipality are shortly expecting orders from the Government in the matter of the construction of houses on the sites already sold As regards the erection of a Mill in the extension the Municipality agree with the views of the Sanitary Commissioner

The Municipality will see that the construction of houses will be according to the modern method of town-building

Report to accompany the alternative estimate for the layout of the extension at Hiriyur

\*\*\*\*\*

Rs 14710 as corrected in  
Chief Eng's office

An estimate amounting to Rs 10270/<sup>14710</sup> was prepared in this office for laying out an extension in the triangular plot between Bangalore Road and Huliya Road from their junction southwards at Hiriyur Town. The layout consisted of a central triangular park, separated from the dwelling area by main roads allround the triangle of the park. Between these roads and existing Bangalore Road and Huliya Road and a proposed new main road at the south joining the two above mentioned roads two rows of building sites of 100' length and suitable widths and separated by conservancy lanes running between the two rows of sites were proposed and thus 57 sites were obtained. The main roads communicated with the internal main roads around the park with cross roads centrally situated to the whole layout.

The Chief Engineer in his No 9261 dated 23-12-1924 modified the plan of the layout, adding 3 more roads to communicate with the interior Park Roads at the apexes of the triangle of the original layout. Accordingly this alternative estimate has been prepared for the cost of laying out the extension as -

per

per the modified plan. This modification  
has necessitated additional length of --  
main and conservancy roads, and also --  
conservancy drains and tunnel crossings.  
The cost of the estimate thus amounts -  
to Rs.16,550/-

SECRETARIAT  
CH. L. D. R. U. G.  
13th June 1925

Dear Sir

With reference to our D ( o L 31/L1 199-22  
dated 12th instant requesting me to furnish certain info  
tion regarding the extension of Hiriyur to n I write to  
state that a report in the matter was received recently  
from the President Hiriyur municipalit stating that the  
municipal council expect an annual income of Rs 150 to Rs 200  
in the subje of house tax after the buildings are construc-  
ted in the extension But no information has been furnished  
by the President regarding the disposal of the amount  
derived therefrom till now I sell the amount if any  
expected to be realised on future dates &c The President  
has been requested to submit complete information at a very  
early date

On receipt of the same a final reply will be sent to you

Yours sincerely

or *Bar-at-Layany*

Autalduy et

Dear Sir,

With reference to the Correspondence  
enclosed with your D.O. No 207 of  
24.2.25 dated 15.12.24 to 25 regarding the  
extension of Kinsman Town, I am  
desirous to request that complete  
information re the expected annual  
revenue out of the scheme may  
be obtained from the sub. C. &  
a final report submitted to  
as early as possible.

Yours sincerely

Despatched 2nd July

Received

General No

Sir,

With reference to your letter No 1

7314/M1 199-22-4 dated 21st April 1925  
enquiring whether the Hiriyur municipal  
council does not expect any revenue out  
of the scheme for the extension of the  
town, I have the honor to state that the  
President reports that the matter was  
placed before the Municipal Council at  
their meeting held on 25th May 1925, when  
the council resolved that there are no  
funds at the credit of the municipality  
to meet the heavy cost of Rs 16550/-  
required for the scheme, that the  
estimate may however be sanctioned, that  
the council is agreeable to work out the  
scheme as funds permit, that it expects  
an annual income of Rs 150 to Rs 200 in  
the shape of house tax after the build-  
ings are constructed in the extension  
and lastly that the Deputy Commissioner  
be requested to obtain early sanction of  
Government to the estimate and the plan  
as the owners of the sites in the  
extension are pressing for grant of

permission to construct buildings thereon

2 It is since ascertained that 22 valuable sites situated on either side of the road (out of 55 sites laid out in the extension) were sold some years back for an aggregate value of Rs 4065 and that the remaining 33 sites, being not so valuable owing to their situation are expected to fetch a total price of about Rs 2000 to the municipality. The closing balance at the credit of the municipality is reported to be Rs 6500 at present. The President further reports that the estimate and the plan received from the Chief Engineer were approved by the Municipal council at their meeting held on 31st January 1925 when they agreed also to bear half the cost of the scheme from municipal funds, paying Rs 4000 immediately and the remaining sum of Rs 4275 in a course of next 2 years and that the resolution 66 was submitted to Government direct through the Chief Engineer.

3 As the council is reported to have passed the modified resolution dated 25th May 1925 (vide para 1) in order to avoid delay in the sanction of the estimate and the plan and as there are no funds at the credit of the municipality from which they can bear the entire cost of the scheme I recommend that the resolution of the council dated 31st January 1925 may kindly be accepted and the estimate and the plan sanctioned by Government at an early date, so that permission may be granted for the construction of buildings on the sites in the extension.

4 I may add here that the municipality at Hiriyur is only a minor municipality and not a town one as referred to in your letter under reply.

5 The Vernacular file ending with President's report No 66 dated 25th June 1925 is herein enclosed for kind reference and return, when done with.

I have the honor to be,

S I R,

Your most obedient servant,

*M. R. Sankararam*  
Deputy Commissioner,  
Chitaldrug District

*M. R.*

SECRETARIAT

(Continuation of G. R. S. G/38)

With reference to

10/10/38  
10/10/38  
9/10/38

The estimate which amounts  
to Rs 16550 is <sup>submitted</sup> ~~grossly~~ <sup>grossly</sup> ~~estimated~~  
~~estimated~~ for a minor municipality

Items 6 and 9 of the  
estimate viz the construction of  
tunnels at road junctions over  
storm water drains & construction  
of side drain drains costing  
Rs 2184 and Rs 5292, may  
be over & ~~in excess of~~ the rest of

The estimate may be cancelled  
with the cost being met by  
the Municipality Council ~~and~~  
the balance of the cost by Govt.

The Chief Engineer is requested  
to instruct the Engineer  
to do the absolutely  
necessary works for the day  
out proper leaving the rest  
to be done by the Municipal  
Council when the extension  
develops and <sup>if possible</sup> ~~they~~ get  
more money in the shape  
of house tax

The Govt. share of the  
 Cost of the extension  
 as sanctioned above will  
 be met out of the ~~allocated~~ <sup>share under "Improvements of  
Towns & Municipalities"</sup>  
 in the Current year's State  
 Budget - under "30 - Grants  
 for Public Improvements"  
~~"Improvements of Towns and  
 Municipalities"~~
